

NFT Central

- Artist NFT Merchant Gallery Terms & Conditions
- Artist or Gallery has the rights and authorizations to publish & sell NFTs minted in the NFT Central Gallery Merchant Shop created. Any unauthorized publishing will be removed as identified by BCHLX Corp.
- Artist or Gallery accepts the BCHLX Merchant Terms & Conditions.
- Inheritance Rewards issued for NFT Purchases are NOT the obligatory responsibility of the Merchant. BCHLX Corporation manages and awards inheritance coin independent of the Artist or Gallery.
- NFTC Galleries Include a Business BCHLX Wallet with account creation. This is where artists should go to mint new NFT collections or add additional products & service offerings to their Merchant Shop.
- Artist &/or Gallery have the option to utilize a Gallery affiliated User Wallet creation URL for clients and customers new to HLX on wallet creation be automatically affiliated with your Gallery Store.
- All pricing is set by the artists or gallery.
- BCHLX will setup & help support the first 100 Artists / Galleries that create a merchant store free of charge.
- Galleries & Artist Merchants should price their items according to the below HLX swap policy:
- Par Value of HLX is 3.00.
- Curators do not pay merchant processing fees or costs for users to obtain the HLX used in their gallery.
- Shipping Costs & Sales Tax (if applicable) are the Curators responsibility to include when adding & pricing new items in their NFTC Gallery.
- When pricing products curators should also consider the swap rate
- The HLX swap rate for NFTC Curators is 1 HLX = \$2.75 USD. This should be considered when setting item pricing.
- NFTC Merchants will have access to the HLX Visa card when the marketplace opens.
- Enrollment costs 1 HLX.
- Enrollment includes a Physical & Virtual Visa Credit Card.
- HLX Visa Cards are offered via BCHLX in partnership with STRIPE Payment Processing. Card Holders are required to abide by the Terms & Conditions of the Stripe Payment Processing System.

How To add or mint a new NFT

Inside the Merchant Wallet:

- On the Oculus Side Menu, select “Add Data” . An input window and listing of the Merchant’ s current offerings is displayed.
- -Using the input new item form, add the details for the NFT into the open fields as follows:
 - Item Name: (Name of the NFT Curation or Series)
 - Item Category: (NFTs, unless you create another category within your shop)
 - Inventory (Qty): This is the # of items available (# of times item can be purchased for download)
 - Description: Use this to input descriptions and information about the NFT.
 - Keywords: This is for key words for users to search for the item in the marketplace.
 - Upload Files: (The NFT Creation or Product Images)
 - Select from “Allocation HLX” Turn this “on” to allow users holding allocated HLX coin to purchase this item.
 - Select from “Allow Downloads” Turn this on to include the BCHLX Watermark on your uploaded NFTs prior to purchase. This watermark is automatically removed when item is purchased.
- Shipping Costs: If the NFT includes a physical product which requires shipping, use this field.

Once the information has been completed filled out, click on save & a success message should appear to confirm the upload.
